

CLIL: CHANGE LEARNING INTO LIVING!

CLIL Methodology Course

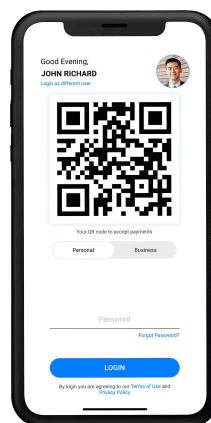

Lesson #5

November 13th 2024

Dr. Angela Panzarella, IIS Falcone-Righi, Corsico (MI)

Why using technoCLIL

The full immersion into technology and digital devices led to a new approach for learning, too. Same happened for CLIL which, being an active methodology, really suits the need of digital natives in the context of a more innovative, engaging and inclusive teaching and learning approach.

Aims of technoCLIL

1.	2	3
SUPPORTING LANGUAGE LEARNING	INTEGRATING CONTENT AND LANGUAGE	MOTIVATE, ENGAGE AND INCLUDE
Using technology to make learning a second language more accessible and interactive.	Create a dynamic learning environment where subjects contents and target language are taught simultaneously.	Increase interest and participation of all students through multimedial and interactive resources.

Technological instruments

E-LEARNING PLATFORMS	MULTIMEDIA INSTRUMENTS	GAMIFICATION	ONLINE COLLABORATION
<p>Moodle, Google Classroom, Edmodo, eTwinning...</p> <p>-</p>	<p>Online presentations, video and podcast activities,</p> <p>3DAR, AI, Debate...</p> <p>(Genial.ly, Canva, Tagul, EdPuzzle, Quiver, Gamma, Mentimeter, Kialo...)</p>	<p>Kahoot!,</p> <p>Learning Apps,</p> <p>Genial.ly,</p> <p>Quizlet...</p>	<p>Padlet</p> <p>eTwinning.</p> <p>Google docs,</p> <p>Wikis...</p>

Advantages of technoCLIL

1.	2	3
FULL ACCESS TO GLOBAL RESOURCES	PERSONALISED LEARNING	COLLABORATION AND COMMUNICATION
Students may have full access to authentic contents and didactic materials from all over the world.	Technology allows to adapt teaching to the specific needs of each student.	TechnoCLIL helps collaboration and cooperation between students and teachers from all over the world.

Some practical usages of technoCLIL

1.	2	3
INTERACTIVE LESSONS	CROSS-CURRICULAR PROJECTS	DIGITAL ASSESSMENT
Using simulations and educational games to teach scientific/specific contents in the second language (English).	Creating projects combining history, geography, science and English language through collaborative platforms and digital resources	Through gamification, online Test and quiz time, teachers may assess both content comprehension and language skills.

Challenges and Reflections

1. DIGITAL SKILLS:
2. EFFECTIVE INTEGRATION
3. ACCESSIBILITY

Need to grant a constant training for teachers

Make sure that technology really supports learning and doesn't become a distraction.

Assure that all students have access to the required digital devices, resources and instruments.

Teach students not to fall into the traps of the net!

Challenges and Reflections

1. DIGITAL SKILLS
2. EFFECTIVE INTEGRATION
3. ACCESSIBILITY

Challenges and Reflections: DIGITAL SKILLS

- Need to grant a constant training for teachers
- Teach students not to fall into the traps of the net

Challenges and Reflections: EFFETTIVE INTEGRATION

Make sure that technology really supports learning and doesn't become a distraction.

Challenges and Reflections: **ACCESSIBILITY**

Assure that all students have access to the required digital devices, resources and instruments.

TechnoCLIL to innovate, motivate, engage, include!

TOWARDS AN INNOVATIVE EDUCATION

TechnoCLIL is a step forward towards an active education integrating content and language with the opportunities offered by technology.

TechnoCLIL to innovate, motivate, engage, include!

FUTURE OF TECHNOCLIL

With the constant evolution of technologies, the potential to improve learning to technoCLIL is unlimited.

Don't be afraid of technology and its potential, get to know it and use it at its best!

BREAK TIME

Webtools e apps nel CLIL

[QUI](#) una mia presentazione in genial.ly sui webtools per la didattica.

SYMBALOO

- Contenitore di app
- Per avere webtool e app a portata di click

- Registrazione con Google account
- Creare nuovo webmix
- Add tile per inserire i link di app e webtool

Padlet

Muro virtuale su cui condividere link, foto, immagini, audio, video. Si può permettere anche interazione con commenti e like degli alunni.

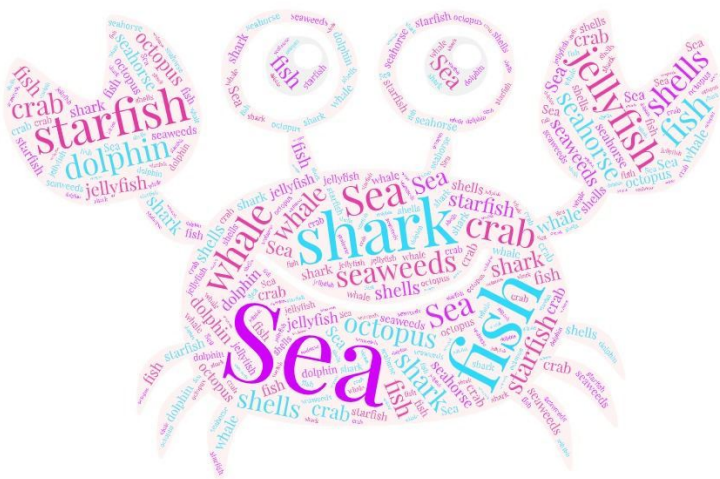

Con Padlet si possono assemblare lezioni multimediali, realizzare brainstorming, cooperative learning, station learning e condividere materiali,.

Si può permettere integrazione reazioni studenti, con inserimento commenti e votazioni.

TAGUL

- Brainstorming
- Keywords
- Permette la realizzazione di mappe visive con parole chiave
- Può essere usato sia in fase iniziale che in conclusione delle attività
- Gratuito
- Registrazione opzionale
- Se non registrati non salva in cloud

TASK: Create a tagul about a brainstorming you would like to launch
Think about a CLIL Topic + Subject

Phonics TIME

Let's have a quick check on PHONICS and PRONUNCIATION

- **Homophones:** are/our; there/their/they're
- Phonics and Jolly Phonics methodology
- Groups 1, 2, 3

Some gifts by Miss Angela!!!
