CLIL: CHANGE LEARNING INTO LIVING!

CLIL Methodology Course

Lesson #3

October 30th 2024

Dr. Angela Panzarella, IIS Falcone-Righi, Corsico (MI)

GRUPPO EDITORIALE LA SCUOLA

LA SCUOLA ACADEMY

Ripresa dalla lezione precedente

Analisi delle risposte alle domande sul CLIL fatte in modalità AVVOCATO DEL DIAVOLO

Riflessione fonetica-fonologica:

- la differenza tra suono e nome delle vocali
- short vowel sounds e long vowel sounds
- their, there, they’re
- are, our

BREAK TIME

15:00

Come iniziare una lezione CLIL

1. Fase di INPUT (motivazionale): 1-2 minuti al massimo
2. Fase di Brainstorming > Wordart creator con TAGUL
3. KWL Chart

KWL Chart

- What I already know
- What I want to know
- What I've learnt

From Storytelling to CLIL

The Three Little Pigs (Miss Angela's version: here)

- Animal classification, Food Chain (Science)
- Landscapes: the countryside, the farm (Geography)
- Materials (Science)
- Interactive module: Genial.ly, LearningApps, etc. (ICT)

BREAK TIME

15:00

TechnoCLIL: Webtools for CLIL

The full immersion into technology and digital devices led to a new approach for learning, too. Same happened for CLIL which, being an active methodology, reallu suits the need of digital natives in the context of a more innovative, engaging and inclusive teaching and learning approach.

TechnoCLIL is using digital instruments and technologies to improve the effectiveness of CLIL approach.

Aims of TechnoCLIL

1. SUPPORTING LANGUAGE LEARNING
2. INTEGRATING CONTENT AND LANGUAGE
3. MOTIVATE, ENGAGE & INCLUDE

1. Supporting Language Learning

Using technology to make learning a second language more accessible and interactive.

2. Integrating Content and Language

Create a dynamic learning environment where subjects contents and target language are taught simultaneously.

3. Motivate, Engage, Include

Increase interest and participation of all students through multimedial and interactive resources.

WEBTOOLS FOR LEARNING

- Here a presentation of some webtools and apps for learning

SYMBALOO

www.symbaloo.com

You can create your personal webmix and embed many apps and webtools.

It will be easy for you to have them all at hand!!!

Task 1:

- Register your account on Symbaloo (with Google)
- Create a new webmix
- Add the first tiles related to the first webtools we've seen these days.

Grazie

See you soon!
